I — MILA PRINTS DESIGN

WHO WE ARE

Mila Prints Design is an author's studio founded in 2017 by Agustina Sorrentini, crafting sophisticated print narratives for premium and luxury fashion brands worldwide.

Born in Argentina. Formed in the ateliers of Milano.

That is rare: Latin sensibility refined by Italian craft standards honed at Gucci. We offer two distinct paths to the same level of creative vision: Signature Print Capsules curated and ready for your season, or bespoke narratives built entirely around your brand's DNA.

OUR DIFFERENTIALS

/ LUXURY HERITAGE

A vision honed at top fashion houses. We ensure absolute technical perfection and luxury standards in every design.

// TREND INTELLIGENCE

We anticipate trends, not just follow them. We read global signals and cultural shifts to stay ahead for our bespoke projects and our curated editions.

/// DUAL ACCESS

Different ways to the same creative vision. Enter the world through MPD Editions, or commission the full creative conversation in our Atelier.
